Fall Female Sale

November 21, 2023

**Commercial Females—400 head
bred cows, bred heifers, heifer calves**

**Red Angus
Black Angus
red & black baldies**

k2redangus.com

Welcome!

Thank you for your interest in our Fall Female Sale. We have been doing this sale for about 9 years, but it has been a part of our operations plan and goals for over 15 years. This is a sale offering high quality, consistent, commercial females every year. We are not offering these females just because it is too dry or the prices are right to sell. These are high quality cattle offered intentionally for our customers breeding programs.

Good doing, long lasting, females take years of breeding to create, and, unfortunately, one generation to harm. We often hear a promotion of a new fantastic bull, worth some crazy amount of money, and he is probably only a year or maybe 2 years old. I say it takes about 6 years to know if a bull is really any good. That bull needs to have proven daughters in production. In a beef industry that is more and more driven by numbers on a paper, the traits that make a great cow herd, and take 6 years or more to show up, are too often ignored in the seedstock industry. When you purchase females from operations that have been focusing on maternal traits for 15 and up to over 30 years, you are buying cattle that have genetics backing them that have long passed that 6 year mark.

We know how important the females you add to your operation are to your future success and longevity in the business. We are grateful that you consider this sale as a source for these genetics, we constantly work to make the genetics offered in this sale ones that will benefit your operation now and for years to come.

Sincerely,
Jason & Kim

Guarantee

All guarantees are between the buyer and the seller of the females. Each seller's guarantee information will be included in their section of the catalog.

Health information

The health information for all cattle will be included in each seller's section of the catalog.

Viewing Cattle

To see a seller's herd or operation, make arrangements to go to each place prior to sale day. Contact individual seller or Kim to arrange these visits.

All cattle can also be viewed on videos available about a week before the sale and up through the sale.

Sale Day— Cattle will be displayed at the K2 Red Angus south pens.

Online Bidding and Videos

Online bidding is available through DVAuction. Videos of each lot will be up about a week before the sale on DVAuction.com and at K2redangus.com.

Payment

All cattle will sell by the head.

Payment is to be made on sale day unless other arrangement are made ahead of time.

Important Sale Notes

Updated head counts for each lot will be announced sale day.

There are different head minimums on some lots. Most are a 10 or 5 head minimum, gate cut, or sell as a whole group on smaller lots.

We would like to buy back your heifer calves out of any of the K2 Females in this sale.

Any females in this sale have the option of coming back to this sale—for example calves born out of these females, bred heifers from these heifer calves, or bred 3's.

Lots 1-12

K2 Red Angus females

K2 Bred Females-Breeding & Health information

Heifers have "breeding" tags in their right ear.

Green tags = AI bred May 14-16, Due Feb 18

White tags= bull bred, March calving

Orange tags = bull bred, April calving

K2 Bred heifers (lots 3-7) have been preg checked in August so that we could determine age of pregnancy. They are guaranteed to be pregnant if they buyer chooses to have the re-checked before December 31, 2024. We will refund or credit the difference on any heifers that have lost a pregnancy.

K2 Bred Cows (lots 1-2, 8-14) Have been preg checked 2 times prior to the sale and the 2nd time within 10 days of the sale. They are guaranteed bred at that time.

Ages: Since we are going by actual age of each cow, the age listed is her age as of November 21, 2024.

All K2 Bred heifers & cows have been vaccinated with Virashield 6L5 at preg check.
All K2 bred females offered here will have 2024 calves eligible for FCCP tags.

Cattle need to be picked up at least by **November 26th** unless other arrangements have been made.

By Request

Our customers have asked for more bred females coming with their 2nd calf, already proven with that first calf out of the way.

This group is exactly the same as the bred heifers in our sale. When we went to summer pasture with the heifers the first 150 head out the gate went to one pasture and sold in November 2023, the rest, by gate cut only, went in with our cows to be kept and bred to sell as coming 3's. As with all K2 females we sell, none of these have ever been preg checked open.

Lot 1 A & B

K2 2's coming 3 year olds

A. Solid Reds

34 head—sell in a gate cut of 5 or more

AI bred May 22-23 to K2 Reign, Lee & 49D. A breeding list will be available sale day with individual matings.

Clean up bull K2 HC 864 2023 #4687125, for 50 days. Bull bred June 1—August 12

B. Brockle

3 head—sell as one group

AI bred May 22-23 to K2 Reign, Lee & 49D. A breeding list will be available sale day with individual matings.

Clean up bull K2 HC 864 2023 #4687125, for 50 days. Bull bred June 1—August 12

Lot 2

K2 Solid Red 2's coming 3 year olds— Summer Herd

5 head—sell as one group

Bull bred for 40 days to

July 3rd—August 12, 2023, expected due date April 1, 2025

Right out of our summer registered herd, these females have been expected to go from Mid May calving to 1st of April for their 2nd calf. We breed them earlier specifically for this Female Sale.

Lots 3-6 K2 Bred Heifers

We have divided the heifers into 5 lots to help buyers get the exact females that fit their program. Heifers are divided by solid or brockle color, and calving dates. Complete descriptions are noted for each lot. The exact number selling in each lot will be updated sale day.

Heifer Development:

Heifer development was a big part of our family's operation growing up. And when I say big part I am not necessarily talking numbers, but importance. Heifers were grown out in a way to make them profitable cows with a long future in the herd. The other aspect that fits in to how we develop these heifers is Kim's 18 years and over 70,000 head experience in the custom AI business. This was an opportunity to see many ways of developing females! Our heifers were ran out on large fields and pastures all fall and winter.

Not just any heifers....

The heifers we purchased were bought to develop, breed and offer to our customers as bred females. They are sired by K2 Red Angus bulls. We focus on the maternal side of our genetics and here is a great chance to pass that on to you through the females! These heifers are from sources well known to us, and I will give you a little background on each of them.

Jim & Connie Bowen

This couple has the nicest set of commercial Hereford cows I have seen. We are so fortunate they use our Red Angus bulls on the heifers and young cows, AND they offer all of the crossbred heifers for sale, keeping only the purebred Herefords for their own operation.

Cam, Abby, Halle and Keen Huston

This family has used great AI genetics, since Abby is a pro AI Tech, and also K2 Bulls for years. They have a great set of Red Angus & Red Baldy cows, and we are fortunate enough that we get to pick some heifers from their herd every year!

Brant Ranch

The Brant family near Wheatland has bought many K2 bulls over the last 16 years. They have a great set of red and red baldy cows. These cows have spent the summer in high elevations for generations and are well adapted to Wyoming range. Terry has been purchasing some of what we consider our top bulls, and these females just keep getting better every year!

Lonesome Windmill Ranch

Dale Oliver, Jason, Tycie, Tyson & Jaret Lichte

We have gotten to know these people and their cattle over the past 10years—and both are great! These heifers are mainly out of K2 bulls and some out of bred heifers right from this sale. Most of this herd summers at high elevations. They are a nice herd of good, working mama cows.

Home Raised

We run our commercial cows right in with the registered cows. They get AI bred and then the same natural service sires that are with the registered cows. The goal for our commercial females is to raise top quality heifers to offer in this sale.

Lot 3

K2 AI Bred—Solid Red Heifers

82 head—selling gate cut of 10 or more

AI bred May 14-16

Bred to K2 Redman 631 8031 Registration # 4012058
or Leland Sandman 1193 Registration # 4474645

Redman is a rock solid, well proven calving ease sire that makes some excellent, low maintenance daughters.

Sandman is a sire we used last year to test him out. He is very consistent and reliable in calving ease, and we have some daughters that I think are going to work real well in our herd.

Redman 8031

Lot 4

K2 Bull Bred Heifers— March calving—Solid Red

21 Head—selling as gate cut of 5 or more

White breeding tags

Solid red heifers, grouped by calving due date.

Leland Sandman

Lot 5

K2 Bull Bred Heifers—April Calving—Solid Red

8 Head—selling as gate cut of 5 or more

Orange breeding tags

Solid red heifers, grouped by calving due date.

Service Sires for K2 Bull Bred Heifers

These heifers are bred to K2 Red Angus bulls. All bulls were selected specifically for their calving ease and overall quality, to give you a heifer that calves unassisted, and a valuable calf at weaning.

Lot 6

K2 Red Baldies & Brockles Bred Heifers —AI bred

31 Head—selling gate cut of 10 or more

Green breeding tags—AI bred May 14-16 to Redman 8031 & Leland Sandman

Baldy and brockle heifers, same breeding as lot 3, grouped by color.

Lot 7 K2 Red Baldies & Brockles Bred Heifers —Bull bred

3 head—sell as one group, or by breeding tag

White breeding tags—March calving

Orange breeding tags—April calving

Baldy and brockle heifers, grouped by color & calving due date

Note: The ages listed are the actual age as of November 21, 2024.

Lots 1-2 & 8-14

K2 Red Angus Bred Cows

People often ask the very reasonable question of “are these your cull cows?” We want to let you know we will never sell a cull cow in this sale!

None of these K2 cows have ever been open when we preg check. They are not “re-breeds.” If they have lost calves ever it was not an issue with the cow, but weather, or one of the other many perils where we run.

For the past 15 years it has been a part of our operation and plan to raise good range cows of a variety of ages to offer our customers. These cows are not for sale because they failed at anything we need them to do. They are not for sale because it is a dry year. They are for sale because it is one of our operation’s goals to offer them.

I have to say the compliments we get from customers who buy these cows just makes me feel good about the kind of females we work so hard to raise

Lot 8

K2 Bred Cows—3 year olds Summer Herd

8 head—Sell as a gate cut of 5 or more

Bred to K2 116K and 65K for 40 days; July 3-August 12 expected starting due date April 1, 2025.

Super nice, and just old enough to have the hang of everything, but many years of production left. Coming with third calf.

Sweet miss K2 Haley 631

K2 Cows—Sale Note

We run our operation with 2 calving seasons; one starting in late February and the other in mid May. These herds are completely separate, and run in different locations—no open cows are shuffled between herds ever!

The summer herd was built mostly using embryo transfer from the best cows out of our spring herd. For this sale we moved the calving date up to April 1st, so these cows were actually pushed to breed earlier in their season, and are not cows that bred up late. **These females are Lots 2, 8, 9, 11, 12, 13.**

Lot 9

K2 Bred Cows—4 year olds—Summer Herd

8 head— Sell as one group

Bull bred for 40 days to K2 116K & 65K July 3–August 12, 2023, expected starting due date April 1, 2025

Another set of super, young cows that have just enough experience to prove how good they are going to be.

Lot 10

K2 Bred Cows—6-8 year olds

2 head—sell as one group

AI bred May 24-31 Due to start calving March 1

Clean up bulls; YCYA Hector & K2 Jr 60 days

Good doing, good producing cows

Lot 11

Bred Cows—5 year old's — Summer Herd

5 head— sells as one group or split 4 solid red, 1 red brockle

Bull bred for 40 days to K2 116K and 65K July 3–August 12, 2023, expected due date April 1, 2024

A great set of cows in their prime. We breed for longevity, so these girls are just getting going.

Lot 12

Bred Cows—7 year olds Summer Herd

2 head—sell as one group

Bull bred for 40 days to K2 116K and 65K

July 3—August 12, 2023, expected due date April 1, 2024

Lot 13

Bred Cows—8-9 year olds Summer Herd

2 head- sells as one group

Bull bred for 40 days to K2 116K and 65K

July 3—August 12, 2023, expected due date April 1, 2024

Eventually I have to part with all the cows... Lot 13 & 14 show just how hard that is for me! 52C & 17D are exceptional cows, and are half sisters out of our best foundation sire Hamilton.

Lot 14

K2 Bred Cows—10 year olds

3 head—sell as one group

AI bred May 24-31 Due to start calving March 1 Clean up bulls; YCYA Hector & K2 Jr 60 days

This is a very special group of cows. They are all of the 2014 home raised cows we still have. They are all great foundation cows for any operation. I will also say they are about 3 of the sweetest tempered and best mamas you can find.

...End of K2 Cows

Lots 15-16

TY Cattle Co. Red Angus Females

TY Cattle Co—Dean & Marika Anderson
570 TY Basin Rd
Chugwater, WY 82210
Marika 307-351-4760
Dean 307-351-5600

Dean & Marika are lifelong ranchers, as part of the West Family Ranch, and then going out on their own with TY Cattle Co 14 years ago. They have been good friends and good neighbors of ours for a long time. They raise Red Angus & Red Angus cross cattle.

Even though they raise commercial cattle, Marika has the records to trace the pedigree for several generations on all their cows, especially the calves resulting from their many years of AI breeding. They now have several K2 herd sires in their herd that are bulls we collect and use semen on in our registered herd. When it comes to bull power we think they have some of the best out there.

Raising and breeding females for this sale is a part of TY Cattle Co's operation every year, not just when it is dry or the price is right. They produce cattle specifically to sale here.

They have an extremely low maintenance program and work breeding and management decisions to fit these few inputs. More details are on each lot's information

Cattle have been preg checked Sept 18th, and vaccinated with Vista 5 VL5 prebreeding and dewormer. Guaranteed bred as of Sept 18th.

*Call Marika to visit about their program
or to go look at the TY cattle before the
sale 307-351-4760.*

K2 Patriot 1073 3101 with
dam summer 2023

Service sires for TY Cattle Co

TY has purchased several of the top K2 bulls for several years. The bulls we use in our AI service in K2 Red Angus... TY is using natural in their pasture!

K2 Patriot 1073 3101
K2 Union 618 3136
K2 Lance 30H 43K
K2 Lucas 05 266

K2 Patriot 1073 3101

Lot 15

TY 2 year olds—coming 3's

22 head - Selling gate cut 10 or more

Bull Bred June 26- July 17. Due April 5th

Service Sires: K2 Patriot 1073 3101
K2 Union 618 3136
K2 Lance 30H 43K
K2 Lucas 05 266

These are all coming with their first calf. As part of their program TY Cattle Co breeds for a very short time and with no extra inputs. With this program they breed about half their heifers to calve for the first time as 3 year olds. They are hoping to move their program to calve all heifers as 3's.

Red Angus Marketing Programs

All Calves out of these TY Cattle Co bred females are eligible for Red Angus Marketing Programs. Get your *Purchased Bred Commercial Females Form*, to start your calves certification.

K2 Union 618 3136

Lot 16

TY 3 year olds

22 head - sell as a gate cut of 10 or more

Bull Bred June 26- July 17. Due April 5th

Service Sires: K2 Patriot 1073 3101
K2 Union 618 3136
K2 Lance 30H 43K
K2 Lucas 05 266

This group had a calf, then had a year off to gain some weight and breed up early. They are in great shape and ready to make it through with no extra inputs or money invested to produce their next calf and from the TY herd history they should have extra longevity.

Cullen Ranch

Pat & Sherri Cullen

307-331-1180, 307-331-8515

654 Deer Creek Road

Wheatland, WY 82201

Cattle are Lots 17-21

These cattle come from Kim's parents. Pat & Sherri have been selling consistent, high quality bred heifers for over 30 years, with many long term and repeat customers. They have a commercial mostly black, Angus and baldy herd. Maternal traits have never taken second place on this operation. These females are backed by years of good producing range cows that are expected to work for a living.

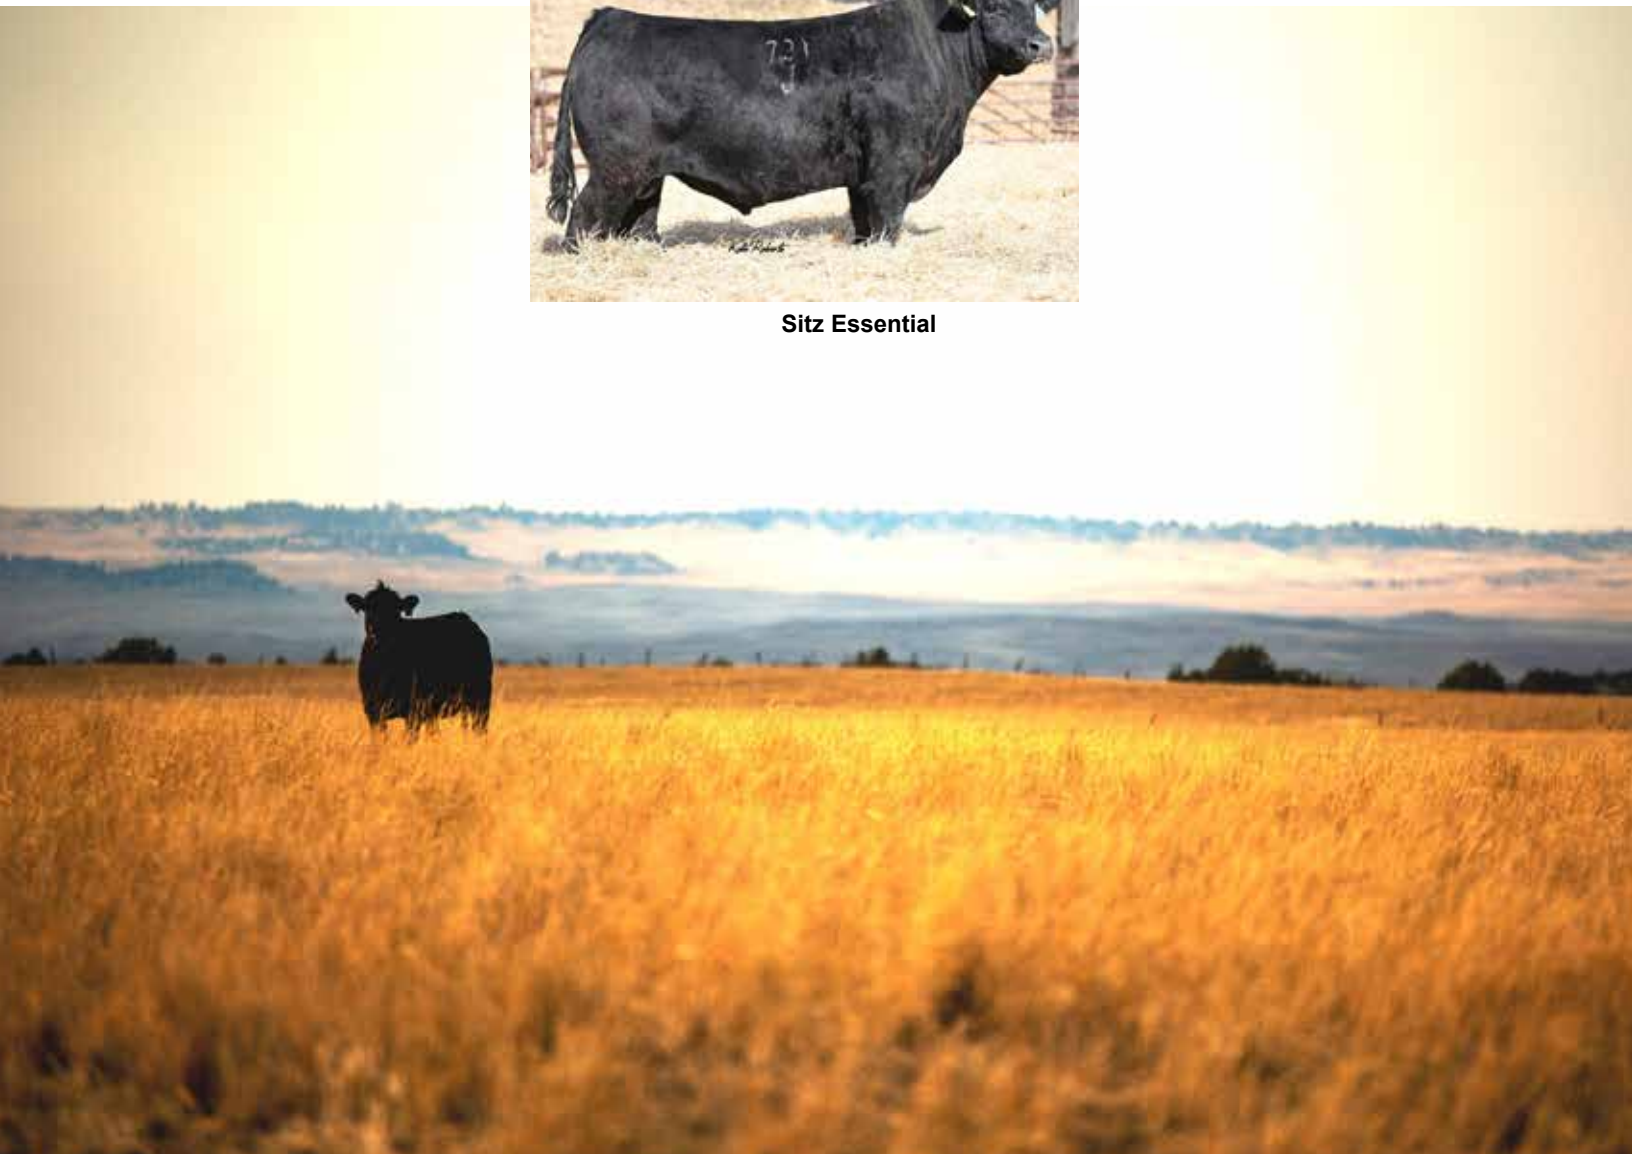

Heifers were preg checked September 10th

Vaccinations— Virashield 6VL5, Scourguard 4KC and poured with Clean-up

These heifers were preg checked in September so that we could determine age of pregnancy. They are guaranteed to be pregnant if the buyer chooses to have them re-checked before December 31, 2024. Cullen Ranch will refund or credit the difference on any heifers that have lost a pregnancy.

Sitz Essential

Lot 17

AI Bred, Solid black heifers—bred to Angus

21 head—gate cut of 5 or more

AI bred to Sitz Essential June 6-8

Purple breeding tags for AI bred Heifers

Quality and consistency run deep in this set of heifers, then add to that, one AI service sire, and only 3 days of breeding and you are on the way to one nice set of matched up pairs.

Essential comes from the Sitz program that is deep in maternal quality. He not only excels in calving ease, but also has a good EPD for low PAP, for high elevations.

NJW Endorsement

Lot 18

AI Bred, Solid black heifers—bred to Hereford

29 head- gate cut of 5 or more

AI bred to NJW Endorsement June 6-8

White breeding tags for AI bred Heifers

A great set of mamas coming up with the hybrid vigor already added in the mix for this calf crop. These will be all F1 cross calves, all out of the same sire. We have seen the baldy daughters of the Cullen Ranch heifers in years past return to this sale. They make a fantastic set of half sisters!

Lot 19

AI Bred, Baldy/Brockle heifers—bred to Angus

10 head- Sells as one group

AI bred to Sitz Essentail June 6-8

Purple breeding tags for AI bred Heifers

A great set of those hard to get nice black brockle females all set to calve to one AI sire in a very short calving season. If you want some mamas bred and raised to work hard and have good longevity, this is quite a set.

Lot 20

Bull Bred Solid Black heifers—bred to Angus

29 head—gate cut of 5 or more

Orange breeding tags

Bull bred June 21- July 26

Same high quality blacks as Lots 17 & 18, only sorted by breeding dates. Bred to calving ease WEBO Angus bulls a K2 Union son.

Our picture cow, #574, is pictured at 9 years old. She was sold by Cullen Ranch as a bred heifer in 2017
